

Model 7616-14

Long-Reach Flat Panel Arm

This massive arm extends up to 42" with vertical range of 31", allowing for a remarkable amount of flexibility. Simply grip the Operator handles and move the monitor anywhere within its huge span. A wide degree of monitor tilt is also featured, even the ability to turn the monitor from landscape to portrait viewing. Cables are threaded through the arm, keeping them out of view and out of harm's way. As with all Innovative articulating arms, the monitor floats weightless above the work area, where it can be effortlessly repositioned.

Use handles to quickly reposition the monitor

Easily rotate monitor to desired angle

Fold arm to save space when not in use
