ERGOTRON®

## Dock Locker™

### Highlights

- Hard mount the Ergotron Dock Locker to any surface up to 1.5" (3,8 cm) thick with choice of provided bolt-through or screw-in hardware. Or plug your cable lock (sold separately) into the security slot on the top of the unit.
- The Ergotron Dock Locker also conceals ports on the back of the Docking Station to keep cords and cables plugged in and tamper-free.
- The unit ships completely assembled. Install using the provided instructions (either hard-mount or security cable), then slide the Docking Station into place. When closed, the Ergotron Dock Locker grips the top of your Surface Pro 3, and surrounds the side tabs on the Docking Station to keep them closed.
- Cushioned top grip holds the top edge of your Surface Pro 3 screen firmly and won't leave a trace.
- Keyed lock keeps the unit closed and locks the security slot.

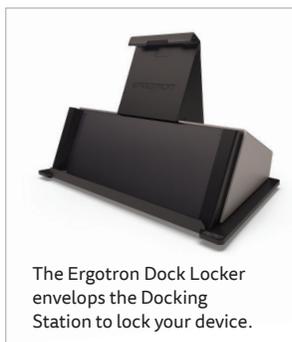

Designed for  
**Surface**

Surface Pro 3

### For Microsoft Surface Pro 3 and Docking Station

Protect your Surface Pro 3 and its Docking Station from theft and tampering with the Ergotron Dock Locker, which locks everything in place. Just bolt, screw or tether it onto your workstation, then lock it around your Surface Pro 3 and Docking Station for a single secure environment.

The Ergotron Dock Locker envelops the Docking Station to lock your device.

The Ergotron Dock Locker's Top Grip gently secures the Surface Pro 3 screen.

Essential pieces to secure your mobile device:

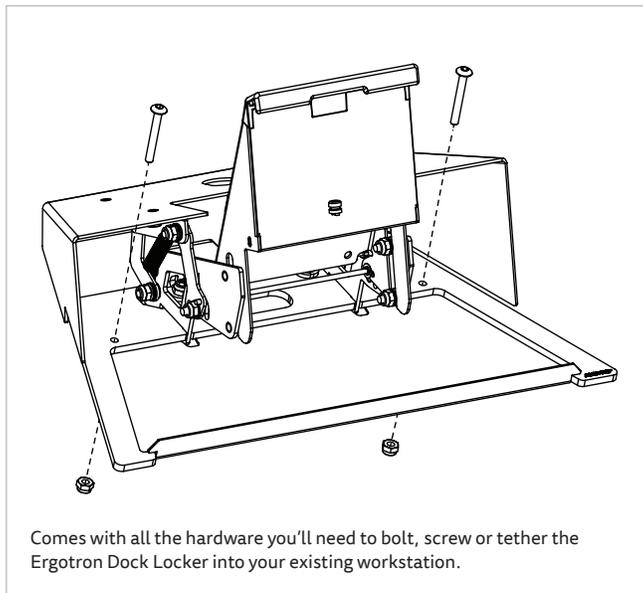

**1** Surface Pro 3

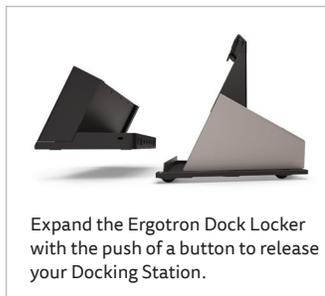

**2** Docking Station

**3** Ergotron Dock Locker

Comes with all the hardware you'll need to bolt, screw or tether the Ergotron Dock Locker into your existing workstation.

Expand the Ergotron Dock Locker with the push of a button to release your Docking Station.

The clean look also prevents tampering of cords & cables.
