a Business Machine Security Company

## Model 31177ARM-Mouse Tray | Laptop Security Stand

(Laptop, arm mounts and wall mounts are not included.)

## Installation Instructions

### Notes Before Beginning Installation:

1. To familiarize yourself with the entire installation process, please take a moment to read through all of the installation steps.
2. Disconnect all cables from the back of the laptop computer and clear the work surface around the wall or desk.
3. The Laptop Security Stand secures the laptop to a desk or arm mount. No variation of Laptop Security Stand will adhere directly to a wall.
4. When your laptop is installed in this product, the monitor remains open at all times.

### Tools and Components included in your package:

2-Wings

Ribbed Plate

Slide Bracket

Base Plate

Mouse Tray  
Paddle Bracket w/Lock Block

Hardware

**STEP 1:**  
Align Mouse Tray hole pattern & Slide Bracket slots on the base plate. Screw in hardware (A,B,C,D) loosely allowing easy movement of slide bracket.

**STEP 2:**  
Assemble the Back Plate and wings according to the size of your laptop. Slide Ribbed Plate onto Paddle Bracket and secure with screws.

**STEP 3:**  
(A) Slide assembled Back Plate onto laptop. (B) Once attached fold keyboard towards monitor.

**STEP 4:**  
Connect Back Plate to Base Plate by inserting the flat-head screw into the keyhole and pulling forward to lock.

**STEP 5:**  
Adjust Slide Bracket to fit snugly on keyboard. Mark position with pencil on bottom of slide. Remove back plate and tighten slide bracket on base plate at marked position.

**STEP 6:**  
(A) Re-insert flat head screw with computer in place. (B) Slide Back Plate and laptop forward to locked position and tighten flat-head screw from the bottom until snug.

**STEP 7:**  
Insert both locks into the Lock Block. Use keys to turn locks clockwise until fully threaded into pemnuts on the Base Plate. (**Do Not Overtighten**) Remove keys. Installation is now complete and ready to use.

**STEP 8:**  
To use with arm mount place assembled Laptop Security Stand on arm mount. Align the 4 holes on the base plate w/arm mount holes. Insert security screws from the bottom and tighten w/Bit provided.
