

ASSEMBLY INSTRUCTIONS

Surge Protector

WELCOME

Hello! Thank you for choosing Anthro.

These instructions describe the installation of Anthro's Surge Protector. If you have any questions or if we can help you in any way, please contact Anthro at 800.325.3841.

TOOLS

You will need an electric drill and 5/32" hex driver. The hex driver was provided with your Anthro product.

PARTS LIST

Before beginning this assembly, please take a moment to review the parts list below to verify that your shipment is complete. The AnthroBench (shown in image) is not included with this accessory.

Product	Quantity	Part Number
01 Surge Protector	1	400-5000-03
02 Self Threading Screws	2	325-5010-00
03 Wood Screws	2	325-5106-00

Outside the U.S. | Tel: 503.691.2556 | Fax: 503.691.2409

To Attach to a Vertical Leg:

Step 1

- Insert two screws 10 holes apart at the desired height on your cart's vertical leg. Drive the screws partially in (they should protrude about a quarter of an inch).

Note: Your surge protector will hang down from these screws. Be sure that there is enough clearance for the surge protector.

Self-threading Screw
325-5010-00

STEP 2

- With the power cord at the bottom, slide the slots on the back panel of the surge protector over the screws.
-

To Attach under a Shelf:

Step 1

- Decide the location where you want to attach the surge protector under your shelf. With a pencil, mark drill holes 10" apart.
-

STEP 2

- Drill two small holes (being sure not to drill through the laminate) at the marked locations.
-

STEP 3

- Drive the screw partially in (it should protrude about a quarter of an inch).

3/4" Wood Screw
325-5106-00

STEP 4

- Slip the back, slotted panel of the surge protector over the screws.
-

CONGRATULATIONS! YOUR SURGE PROTECTOR ASSEMBLY IS COMPLETE!
