

CHARGING SOLUTIONS

Store, charge, and easily transport your laptops, netbooks, tablets, and mini-touch devices in our award-winning charging carts.

Chosen *Most Innovative* by NeoCon's international leaders in product design, our charging products have a Lifetime Warranty to withstand the wear and tear of constant use.

Mr. Post's Advanced Netbook Charging Cart holds more than netbooks! By removing shelves, he customized the enclosure to hold all his equipment.

PRODUCT SPECIFICATIONS

Tested for Safety: Anthro charging carts are tested by ETL to UL standard 60950.

Materials: Steel with baked-on powder coat finish. Wood surfaces in the Mobile Devices family are medium-density fiberboard wrapped in a highly durable thermoplastic laminate that resists cracking and stands up to regular cleaning.

Warranty: All Anthro charging solutions have a Lifetime Warranty against manufacturing defects on the cart and cabinet body. Standard carts have a 1-year warranty on the electrical system. Advanced carts, Deluxe carts, and mobile device solutions have a 2-year warranty on the electrical system. Cords, cables, and plugs are not warranted.

MOBILE DEVICE CHARGING SOLUTIONS

TABLET CHARGING CABINET, 20-UNIT

SEPARATE IT AREA

- Secure, locking cabinet stores and charges up to 20 tablets (like the iPad® 2 digital device) and readers.
- Mount the cabinet to a wall, countertop, or shelf for extra security.
- Roomy metal bays measure .875" w x 8.5" h x 10.5" to hold your device in just about any protective case. Numbered bays organize devices. Open the door and see at a glance which devices are present.
- Dedicated storage area holds your laptop. Cable pass-through connects to the side IT area for power.
- Cable clips along the top of the metal bay dividers route the power connector cord to the front of the bay for quick connection, and so you can see which devices are connected to power. Cable channels at the back of the cabinet run cables from each bay to the side IT area.
- Separate locking IT area on the side holds power adaptors. Cable management system organizes loose cables cleanly. Power panel comes with 22 power receptacles – enough for all your devices plus a laptop and an extra power receptacle. On/off power switch with indicator light shows you when the outlets have power.
- The optional Sync Kit is a 10-port USB hub that connects 10 devices at a time to your laptop, for updates.
- Keyed locks on front and side doors for security. Low-profile handles are easy to grip. Scan the QR code inside each door to access the owner's manual, user guide, and additional resources.
- Ships assembled with instructions and hardware to mount to studs and drywall (for wall-mounting). Cabinets have two pre-drilled holes for bolting to a countertop or shelf (for surface-mounting).
- Comes in Polar White (PW) top, bottom and doors with Silver Satin (SS) accents. Top and bottom surfaces are 3/4"-thick wood.

MOBILE DEVICE CHARGING SOLUTIONS (CONTINUED)

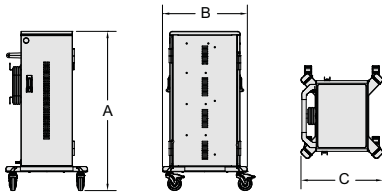

TABLET CHARGING CART, 40-UNIT

SHOWN WITH OPTIONAL DRAWER (PART #743SS)

SEPARATE IT AREA

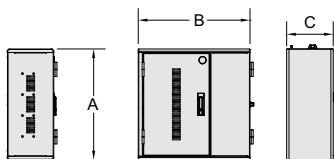

- Compact, mobile cart stores, charges, and transports up to 40 tablets, iPad® mobile devices, and readers.
- The small footprint of the cart (24" w x 24.75" d x 46" h) fits anywhere in the classroom and is easy to move through tight spaces. That 46" height makes it a comfortable teaching station with room for your projector.
- Top shelf has 1/4"-high lip to keep pens and pencils from rolling off.
- Tablet bays measure .875" w x 8.5" h x 10.5" to hold your device in just about any protective case. Numbered bays organize devices. Open the door and see at a glance which devices are present.
- Dedicated storage area stores your laptop inside the front User Area for easy access. Cable pass-through connects the laptop to the back IT area for power.
- Add additional storage for headphones and other peripherals with the optional storage drawer, sold separately.
- Cable clips along the metal bay dividers position the power connector right next to the device for quick connection, and so you can see which devices are connected to power.
- Clips route adaptor cords to separate locking IT area at the back of the cart. Pegboard panel holds more clips to store bundles of cables, and the power column has 42 receptacles spaced to accept each tablet's power adaptor, your laptop, and an extra power receptacle.
- External power panel has three power receptacles, on/off switch and an indicator light that shows when power is directed to the cart's receptacles. The cart's single power cord is 14' long to reach any outlet.
- The cart charges all forty devices plus powers your laptop and the external power receptacles—all at once!
- The optional Sync Kit is a 10-port USB hub that connects 10 devices at a time to your laptop, providing a wired connection for updates. Sold separately.
- Keyed locks on the front and back doors engage a two-point locking system for security. Padlock hasps position your padlock to block access to the handle. Scan the QR code inside each door to access the owner's manual, user guide, and additional resources.
- Four 4" locking casters go over rough surfaces and make the cart easy to move. The 18"-wide round handle is easy to grip.
- Ships assembled.
- Comes in Polar White (PW) top and doors with Silver Satin (SS) accents. Top surface is 1"-thick wood.

Product	Height (A)	Width (B)	Depth (C)	Weight	Part #	Price
Tablet Charging Cart, 40-unit	46"	24"	24.75"	189 lbs.	TAB40SS/PW4	\$1,499.00

MINI-TOUCH CHARGING CABINET, 40-UNIT

SEPARATE IT AREA

- Charge and store 40 small mini-touch devices (like iPod® pocket computers) in this secure locking cabinet.
- Mount the cabinet to a wall, countertop, or shelf for extra security.
- Roomy bays measure 7/8" w x 4-3/4" d x 3.75" h to hold your device in just about any case. Numbered bays organize devices. Open the door and tell at a glance which devices are present.
- Dedicated storage area (10.5" w x 1.5" d x 15" h) holds your laptop. Cable pass-through connects to the side IT area for charge.
- Cable clips route the power connector to the front of the bay for quick connection, and so you can see which devices are connected to power.
- Additional clips along the top of the metal bay dividers route cables to the channels at the back of the cabinet. These channels take cables to the side IT area. (See image at left)
- Separate locking IT area on the side holds power transformers. Cable management system organizes loose cables cleanly. Power panel comes with 42 power receptacles – enough for all your devices plus a laptop and an extra power receptacle. On/off power switch with indicator light shows you when the outlets have power.
- The optional Sync Kit is a 10-port USB hub that connects 10 devices at a time to your laptop, providing a wired connection for updates. Sold separately.
- Keyed locks on front and side doors for security. Low-profile handles are easy to grip. Scan the QR code inside each door to access the owner's manual, user guide, and additional resources.
- Ships assembled with instructions and hardware to mount to studs and drywall (for wall-mounting). Cabinets have two pre-drilled holes for bolting to a countertop or shelf (for surface-mounting).
- Comes in Polar White (PW) top, bottom and doors with Silver Satin (SS) accents. Top and bottom surfaces are 3/4"-thick wood.

MINI-TOUCH CHARGING CART, 40-UNIT

SEPARATE IT AREA

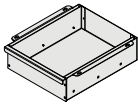

- Compact, mobile cart stores, charges, and transports up to 40 devices. Its small footprint (24.75" w x 23.75" d x 42" h) fits anywhere and moves easily through tight spaces.
- Top shelf has 1/4"-high lip to keep pens and pencils from rolling off.
- Storage bays (7/8" w x 4.75" d x 3.75" h) to hold your device and its protective case. Numbered bays show at a glance which devices are present.
- Laptop cubby accessed from the front and the back of the cart (11" w x 2" d x 13.5" h) connects to the IT area for power.
- Add additional storage for headphones and other peripherals with the optional storage drawer, sold separately.
- Cable clips position a power connectors at the front of each bay for quick plug-in.
- Additional clips along the top of the metal bay dividers route cables to the separate locking IT area at the back of the cart. Pegboard panel holds more clips to store bundles of cables. Plug cables into a four-port USB power hub which connects to the power column.
- External power panel has three receptacles, on/off switch, and power indicator light. The cart's 14-foot power cord wraps on cable hooks under the handle.
- The cart charges all forty devices plus powers your laptop and the external power receptacles—all at once!
- Optional Sync Kit is a 10-port USB hub that connects 10 devices at a time to your laptop for syncing.
- Keyed locks on the front and back doors engage a 2-point locking system for security. Padlock hasps position your padlock to block access to the handle. Scan the QR code inside each door to access the owner's manual, user guide, and additional resources.
- Four 4" locking casters and 18"-wide round handle make the cart easy to move.
- Ships assembled.
- Comes in Polar White (PW) top and doors with Silver Satin (SS) accents. Top surface is 1"-thick wood.

ADVANCED LAPTOP CHARGING CARTS, 20-UNIT/30-UNIT

ADVANCED LAPTOP CHARGING CART, 20-UNIT

ADVANCED LAPTOP CHARGING CART, 30-UNIT

- Intuitive cord management makes it easy to see which brick goes with which notebook. Power inlet connection at the front of the cart makes it easy to connect and charge your laptop.
- Separate locking storage at the back of the cart conceals power bricks and receptacles. Keyed locks front and back protect contents.
- Removable shelves let you customize the interior to store larger items.
- Cooling fan keeps air moving through the enclosure, and it speeds up as the enclosure warms to keep notebooks cool.
- Roomy bays are 13.5" w x 17.5" d x 3" h.
- Doors open 270 degrees so they're flush against the side of the cart and take up less space.
- Four external outlets power peripherals used on the top of the cart.
- Comes in Black (BK) with doors and handles in Silver Metallic (SM).
- Ships assembled.

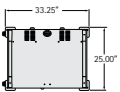

- Black (BK)
- Silver Metallic (SM)
