FAQ

What if I don't know my mounting pattern?

Check the mount locator tool on www.mounts.com to see a list of compatible mounts or select a universal mount, which fits a broader range of mounting points.

My flat-panel fits more than one mount. How do I choose?

Installation requirements, aesthetics, flat-panel weight and range of motion should assist in whittling down your decision for you.

Can I mount this on a floor stand?

Yes. Use our PSP-DB adapter to mate with a PSP floor stand, or you can mount direct to a PSD-SPA, which is included in any of our dual-pole carts and stands (except PSD-VPS).
