

DS-VW660

Video Wall Mounting Solution

For 40" to 65" displays

The Peerless DS-VW660 mount is the latest flat wall mounting solution for easily and quickly installing either small or large video wall configurations. In contrast to standard video wall installations, the DS-VW660 mount includes innovative features that simplify the full installation process, reducing gaps between display units and minimizing tedious calculations and guesswork. The DS-VW660 is engineered to support a wide variety of display configurations while ensuring each mount is positioned for the specific display being used, which reduces on-site measuring and guesswork by utilizing custom-fit wall plate alignment spacers. Display alignment is made easy with four points of tool-less adjustment on each DS-VW660 model – ensuring each display will be level in its environment.

TV size: 40"-65"

Max load: 200lb (90.9kg)

FEATURES

- Modular mount for unlimited video wall display configurations
- Custom wall plate spacers eliminate guesswork and on-site installation calculations
- Tool-less micro-adjustments at 4 points seamlessly align the displays
- Displays and mounts sit flush against the wall for a clean profile
- Snug fit at the attachment point to the display's mounting hole pattern ensures that each display hung in succession is aligned at the same point
- Integrated cable management tie-backs make display-to-display cabling simple
- Landscape display orientation
- Adjustable VESA® mounting hole patterns in 100mm increments, starting at 200x200mm up to 600x400mm, additional patterns supported with adapter plates
- Includes hardware for installation to wood, concrete or cinder block
- Supports displays up to 200lb (90.9kg)

NO CALCULATIONS, NO GUESSWORK

Custom wall plate spacers eliminate the guesswork and on-site installation calculations

INCREASED ELECTRICAL AND CABLE MANAGEMENT OPTIONS

Total wall access is achieved with a unique open wall plate design allowing for increased easy routing of cables and placement of electrical conduits

EASY BY-HAND PRECISION DISPLAY ALIGNMENT

Tool-less micro-adjustments at 4 points seamlessly align the displays

SIMPLIFIED DISPLAY-TO-DISPLAY CABLING

Integrated cable tiebacks ensure easy and organized cabling between displays

Modular Design

Wall Plate Spacers (sold separately)

Four-point adjustment knobs
