

## WORKRITE POISE

monitor arms

### CHANGE THE WAY YOU SEE YOUR WORK

The Workrite Poise monitor arm features a parallel linkage design with adjustable pneumatic counter balance that floats the monitor above the work surface. A simple touch with your fingertip will easily change the position of the Workrite Poise while the monitor remains perfectly parallel.

The Workrite Poise has a range of adjustment to meet users' need for visual acuity and individual user preference that is unmatched in the industry as well as several thoughtful features built in. Graphic indicators are molded into the arm to assist in adjustment long after installation. The cable management system neatly organizes cables out of sight. Optional features include multiple mounting options and quick release monitor bracket for installation flexibility.

Let work  
come to Life.™

# WORKRITE POISE™

Products listed on this page are available through GSA Contract GSA-28F-0030S SIN #711-2 (Schedule 71)

monitor arms

Parallel mechanism keeps screen ergonomically correct

Poise spans the deepest desk then folds down to just 4"

Increase productivity with Twin monitor configurations in vertical or horizontal orientation

### All configurations feature:

- 160° tilt range (+70°/- 90°), 360° pivot at base and arm connections, 180° pivot at monitor mounting
- 4" stored depth
- Parallel linkage design keeps monitor perfectly parallel when adjusting vertically
- Adjustable pneumatic counter balance
- Clamp mount version includes two piece C-clamp and separate grommet clamp (shown) for surfaces of 3/4" - 2 1/8" thickness
- For customized control, including touch-screen use, tension is adjustable at all pivot points
- Integral cable management neatly stores cables
- For security, monitor attached with 4 screws
- VESA monitor mount for 75mm and 100mm standard
- Optional VESA bracket for VESA 100 mm x 200 mm mounting for all single monitor applications
- 80% recyclable at end of life
- 10 year warranty

### Single configuration features:

- Supports monitors up to 22 lbs.
- 23 1/4" reach, 17 1/2" height range
- 180° rotation of monitor to quickly change from landscape to portrait orientation

### Extended configuration features:

- All the features of Poise PA1000 plus an additional extension arm provides 7" more horizontal reach - 30 1/4" total reach

### Heavy Duty configuration features:

- All the features of the Poise PA1000 plus additional support for monitors from 18 lbs. up to 42 lbs.

### Twin configuration features:

- All the features of the Poise PA1000 plus additional support for two monitors from 7 lbs. up to 18 1/2 lbs. each
- Can be installed for either landscape or portrait orientation both vertically or horizontally
- Actual (not diagonal) monitor width not to exceed 20 1/2" each
- Twin mounting plate orients monitors slightly inward towards viewer
