Illustration # 11

22. Place 4 Shelf Support Pins (C) in each of the two Side Panels (P-1 & P-2) at desired shelf height. Place Removable Shelf (P-7) on four Shelf Support Pins as shown in illustration #11.

Height Adjustment

To raise height of either platform, loosen adjustment knob (B) and press handle on height adjustment bracket upward toward top. The pneumatic cylinder will begin lifting the unit, and you can release handle at the desired height. Secure platform at desired height by tightening adjustment knob (B).

To lower height of either platform, loosen adjustment knob (B) and press handle on height adjustment bracket upward toward top. Press on center of Top Platform using body weight. Top Platform will lower and you can release handle at the desired height. Secure platform at desired height by tightening adjustment knob (B).

23. Insert Key (K) as shown in illustration # 12 and turn lock counter-clockwise to lock door.
