

The leader in point-of-care  
digital mounting and mobility

# StyleView® Carts with **Lithium Iron** battery technology

Ergotron increases customer choice with the addition of Lithium Iron (LiFe) battery technology to our point-of-care electronic medical records portfolio

Why choose a StyleView EMR cart powered with LiFe?

**Extremely lightweight and adjustable!**

The LiFe power system combines with StyleView's ergonomic adjustability to decrease caregiver fatigue and enhance overall wellness and productivity

**Ultrafast recharge ensures caregiver and cart uptime**

A full recharge from full discharge can be completed in around two hours for typical loads. Less charging = more caregiving!

**Long battery 'LiFe' minimizes time and cost for maintenance and replacement**

Proven to achieve thousands of cycles per lifetime and to last several years in a typical healthcare setting

**Safe and certified**

For patient and caregiver safety the LiFe power module is fully certified to UL 60601-1; FULL power system and cart-level certification is in progress

**Includes FREE StyleLink with enterprise capabilities**

Install, access and manage your StyleView power systems from a remote location across WAN, LAN, or VPN

# Lightweight. Ultrafast recharge. Long battery LiFe.

## EMR LiFe Carts Electronic Medical Records

Attractive, lightweight and ergonomic, these carts meet the individual needs of the caregiver while supporting the application-specific needs of point-of-care.

- ① True ergonomics! Accommodates the largest range of caregiver heights with single-motion adjustment for sitting or standing and bifocal users; StyleView carts help promote caregiver wellness
- ② Ergonomic back-tilt keyboard tray with left or right mouse tray ensures wrists remain in a neutral position during data entry. LCD and keyboard swivel side-to-side for closer access while interacting with patients
- ③ Push-button Ethernet ready-on function embedded in worksurface: awaken enclosed computer from energy-saving hibernation mode with the touch of an external button—facilitates easy compliance with EnergyStar 4.0 guidelines
- ④ Lockable, ventilated enclosed storage for closed laptop, thin client or CPU up to 15.75"W x 14.75"D x 3.75"H (40 x 37.5 x 9.5 cm). Keys and locks are heavy-duty
- ⑤ Surfaces are treated with Agion® Antimicrobial for product protection; handles are smooth and continuous for improved cleanability
- ⑥ Durable, easy-to-clean exterior composed of aluminum, high-grade plastic and zinc-plated steel promotes infection control
- ⑦ 150W power module with 40 Ah 120V 60Hz Lithium Iron (LiFe) battery
- ⑧ StyleView's small footprint, with ultra-smooth gliding casters, travels across carpeted or hard floors with ease—perfect for moving within space-constrained areas

For patient and caregiver safety, the power module is certified to UL 60601-1; FULL power system and cart-level certification is in progress

Safe, environmentally responsible design provides peace of mind: non-toxic, non-contaminating, non-explosive; no special disposal required

Open-architecture design accommodates most laptops—even widescreen—easing future hardware deployments and upgrades

Covered by Global Service Program—24/7 coverage; other StyleView EMR carts will be upgradeable to LiFe

Available US and Canada only

See how you will benefit from our years of digital display mounting and mobility innovation in healthcare environments.
