

Rotational Mount Interface For Landscape to Portrait Adjustment

NEW!

Go from landscape to portrait with a simple pull of the spring-loaded lever, eliminating the need to remove the screen from the mount whenever the content orientation changes. In addition, the new RMI1 enables a mounted screen to be easily rotated and set at 15-degree increments within 360 degrees. Ideal for standard or creative digital signage displays --- landscape, portrait, waves, zigzag and 45-degree angle patterns – the possibilities are endless. The RMI1 is compatible with Peerless' selection of wall mounts, ceiling mounts, carts and stands.

Rotational Mount Interface

For Landscape to Portrait Adjustment

Model Numbers

RMI1

Product Specifications

FEATURES

- Additional dedicated PLP adapter required
- Allows screen to be rolled from landscape to portrait without disengaging the screen from the mount
- Screen can be rolled 360° without impediment, no tools required
- Screen roll angle can be locked in 15° increments
- Spring-loaded lever makes adjusting the screen position simple
- Tamper-resistant feature allows for screen roll angle to be locked into place
- Low-profile design adds less than 1" to any application
- For use with wall and ceiling mounts, carts and stands*
