

Installation Template: Leader 1

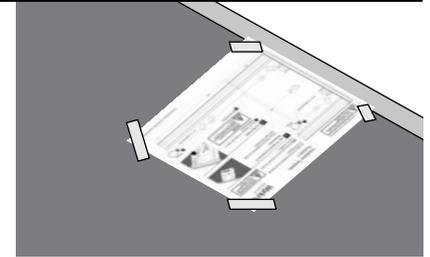

See page 2 for Parts Included and Tools Required for this installation.

CAUTION!
Do not remove arm or front end trim from track for installation.

CAUTION!
Note: Make sure this template is printed at 100% scale. Select "None" in Page Scaling menu in printer dialog box.

1 Tape Template to Underside of Worksurface

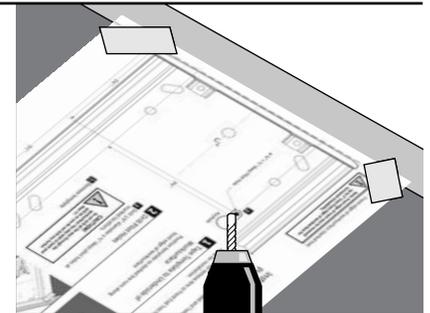

Position template so dashed line runs along front edge of worksurface

2 Drill Pilot Holes

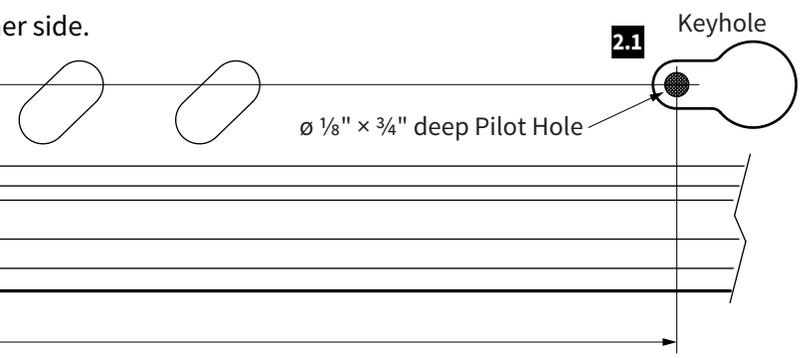

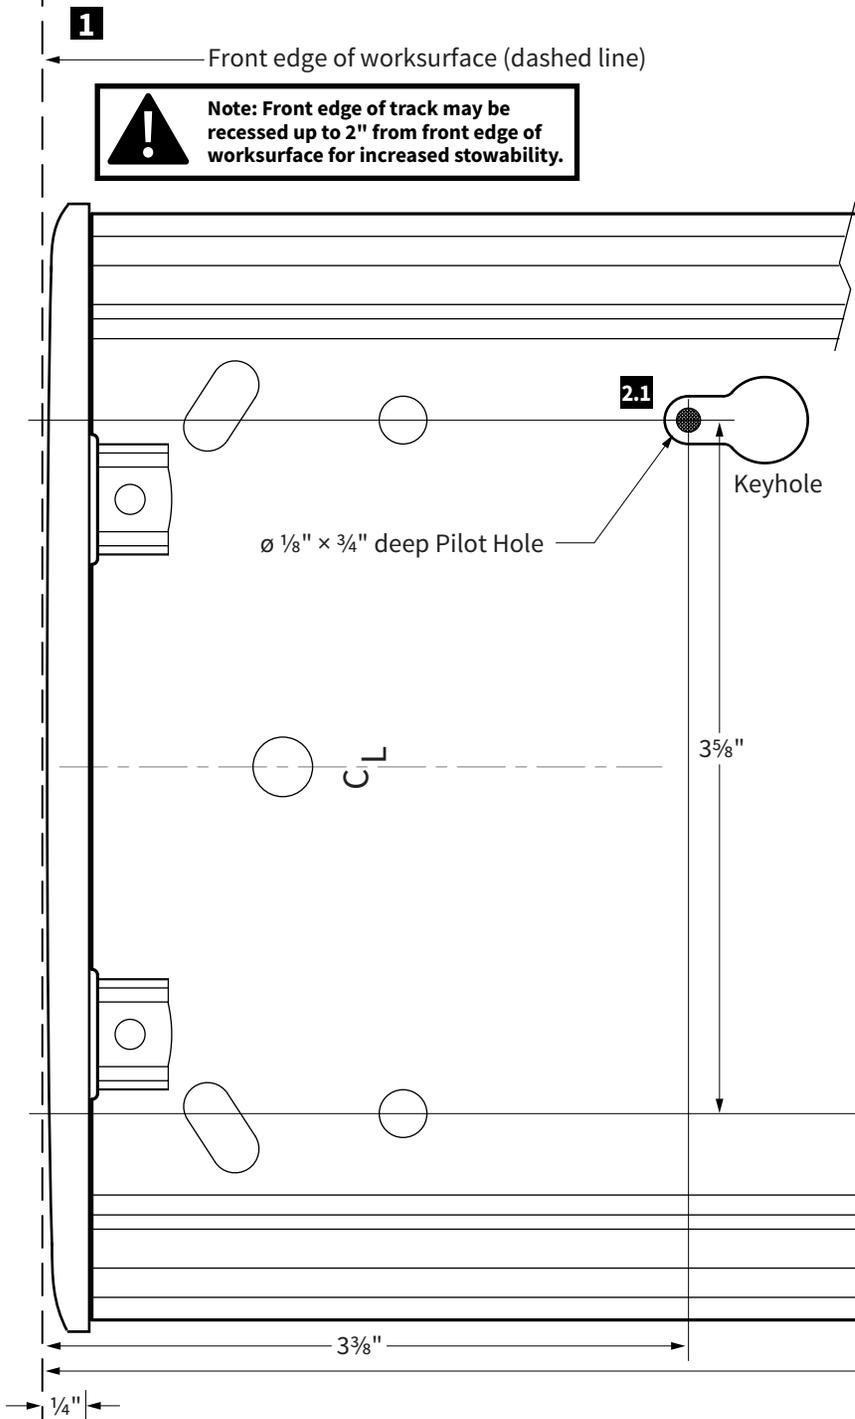

2.1 Drill 1/8" diameter x 3/4" deep pilot holes at marked locations.

CAUTION!
Do not drill all the way through the worksurface! You may wish to mark your drill bit so you do not drill any further than 3/4".

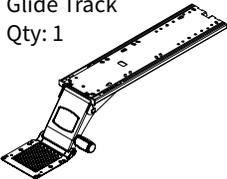

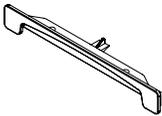

2.2 Remove template.

Continued on other side.

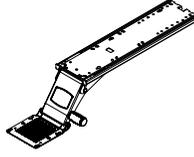

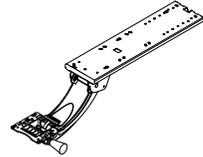

Assembly & Installation Instructions: Keyboard Arm with Nylon Glide Track

Parts Included

A Keyboard Arm on Nylon Glide Track Qty: 1 	B #12 × 3/4" Phillips Screws Qty: 8 	D Track Cover Qty: 1 
	C #10-24 × 1/2" Pan Head Screws Qty: 2 	

Mounting for the following

 3180, LSTS & LSTM	 A-LSSS & A-LSSM
---	--

Required

Worksurface Adjustable Keyboard Platform

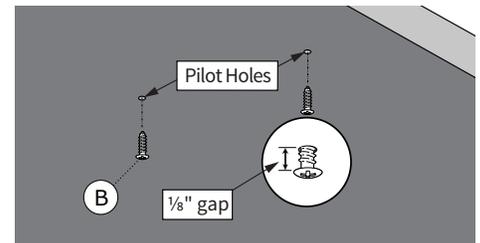

Tools Required

#2 Phillips screwdriver or drill/driver Tape

Continued from other side.

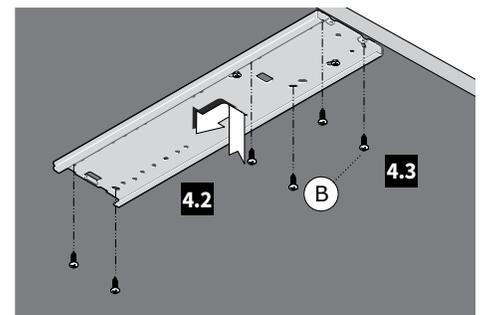

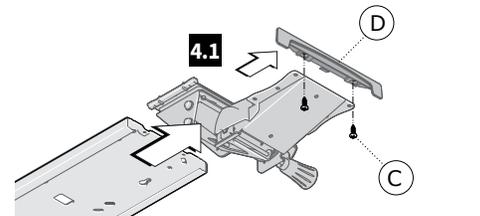

3 Install Pilot Screws in Pilot Holes

Install two #12 × 3/4" Phillips Screws (B) into Pilot Holes. Leave a gap of approximately 1/8" between the head of the screw and worksurface.

4 Mount Track

- 4.1 Remove the two #10-24 × 1/2" Screws (C) then the Track Cover (D). Slide Arm off Track.
- 4.2 Slide Track on Pilot Screws. Tighten Pilot Screws securely.
- 4.3 Drill 1/8" diameter x 3/4" deep pilot holes at marked locations. Install remaining #12 × 3/4" Wood Screws (B) into Pilot Holes.

 CAUTION! Do not drill all the way through the worksurface! You may wish to mark your drill bit so you do not drill any further than 3/4".

Tighten Securely.

5 Install Arm

- 5.1 Replace Arm on Track.
- 5.2 Replace the two #10-24 × 1/2" Screws (C).
- 5.3 Tighten screws securely.
