Workrite
ergonomics®

Parts Included

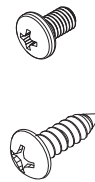

- A** Single Panel Desk Mount,
"L" Bracket
Qty: 2

Hardware Kit

- B** #10-32 × 5/16" Pan
Head Screws
Qty: 4

- C** #12 × 3/4" Pan Head
Phillips Screws
Qty: 4

Required, Sold Separately

Tranquility Poly Panel(s) with threaded inserts
Worksurface at least 1" thick

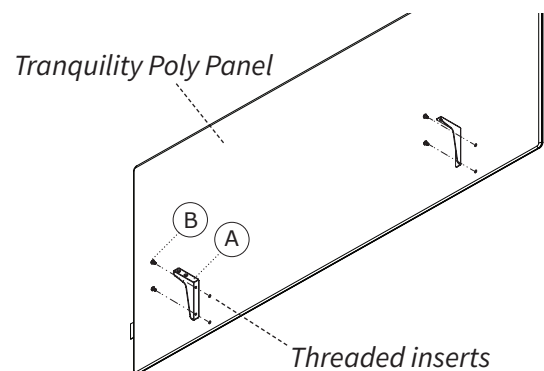

Tools Required

#2 & #3 tip Phillips screwdriver or drill/driver
Drill with 1/8" drill bit
Pencil

Note: If you've purchased the Trough Mount kit, see other side.

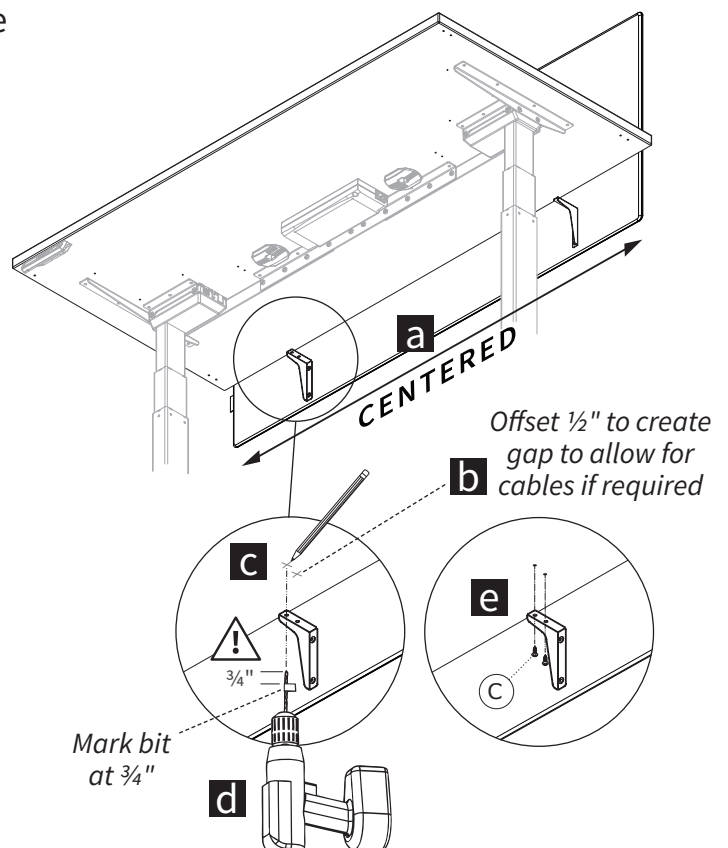

1 Attach "L" Brackets to Tranquility Poly Panel

Attach the two "L" Brackets (A) to the threaded inserts on the Tranquility Poly Panel with the four #10-32 × 5/16" Pan Head Screws (B). Tighten Securely.

2 Locate Panel and Mount to Worksurface

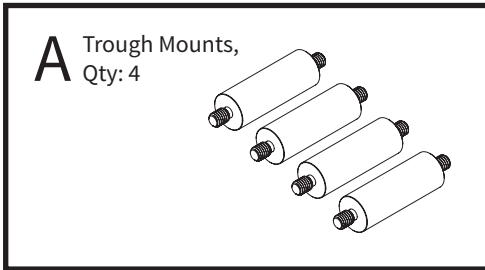

- Center the Panel left to right on the side of the worksurface. Position flush with edge of worksurface.
- Optional:** If cables need to be routed down the side of the worksurface where the Panel will be attached, move the panel back 1/2" to create a small gap to route cables.
- Using a pencil, mark the location of the four holes on the bottom of the worksurface using the holes in the two "L" Brackets as guides.
- Use 1/8" drill bit to drill pilot holes at the four locations.
- ⚠ You may wish to mark your drill bit so you do not drill any more than 3/4" deep and damage your worksurface top. Do not drill all the way through your worksurface!**
- Attach Panel assembly using the four #12 × 3/4" Pan Head Phillips Screws (C).

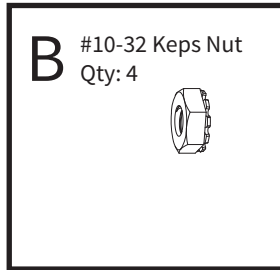

Assembly & Installation Instructions: Tranquility Single Panel Trough Mount Kit, TRQ-MNT-TROUGH1PNL-BA
