

Arm Mounting Solutions

Ergotron offers a variety of mounting options.

2-Piece Clamp: Attaches to the back or side of the desk and requires no tools for installation. Compatible with a wide variety of desk sizes and shapes. It requires little to no space behind the surface for installation and minimal space under the desk.

Grommet Mount: Allows arm mounting through a hole in the desk surface for a harmonized working surface. Included with select arms and available as an accessory.

Low-Profile Clamp: Ideal for many freestanding desks, the clamp's slim profile presents an extra clean look. Attaches above the desk surface, using minimal space under the desk. Requires space behind surface's back edge in order to attach. Accessory clamps available for attaching to thinner worksurfaces.
