#### About the Designers

**Phidesign**, founded in 2004, is a furniture design studio that specializes in high performance Task, Executive, and Guest seating for the commercial market. Led by industrial designer and engineer Francisco Romero, and Graphic Designer Nadine Bosshard Romero, they have carved a niche in value driven markets by designing innovative products in a socially and economically responsible way.

Francisco received his Bachelor of Science degree in Applied Mathematics and then went on to receive his Masters degree in Architecture, both from UCLA.

Nadine studied at the famed Art Center College of Design in both Switzerland and Pasadena.
