LiFeKinnex™ Firmware Over-the-Air Update for Smart Battery Dock Connected to the Cloud

NOTE: These instructions are only valid for Smart Docks that have Inventek Wifi modules.

- 1 Make sure the smart dock is in range of a wireless access point and connected to the WiFi. Look for the WiFi symbol on the LCD display to confirm. If no WiFi symbol, use the LifeKinnex setup tool to program network credentials on the device.
Set up tool: <https://www.ergotron.com/en-us/support/ekinnex/ekinnex-for-lifekinnex>

- 2 If the smart dock is powered-ON, power it OFF by pressing and holding the power button on the LCD until display turns OFF.

- 3 Power-ON the dock by pressing the power button.

- 4 Wait about a minute until the device joins the network. Verify the WiFi symbol.

- 5 Power-OFF the dock by pressing and holding the power button on the LCD, wait until the firmware update starts.

- 6 Make sure the LCD shows the firmware download screen.

Firmware download screen.

- 7 Wait until the download is complete (takes about 20-30 minutes). The system will automatically power-OFF.

- 8 Once the system powers-OFF, wait 1 minute, then power it ON by pressing the power button.

- 9 Verify the updated firmware version on eKinnex for CareFit & LifeKinnex web portal. <https://lifekinnex.ekinnex.com/login>
