

the power of multiple adjustable features.

the zesta premier

FORM FOLLOWS FUNCTION

With Zesta Premier executive seating, form follows function – what is beautiful to the eye is also comfortable to the body. And the beauty of the Zesta Premier is certainly unmistakable. The contoured seat and the elongated tuxedo back are complemented by a chrome fountain base, control mechanisms and elegant casters. But behind these striking good looks is the power of adjustable functions that conform to your every need.

ZA94 (Shown with optional JR40 arms.)

luxurious comfort with modern style.

the zesta plus

A MASTERWORK

Like the Zesta, the Zesta Plus is a masterwork of executive office seating. Its exhilarating curves provide the kind of superb luxury a VIP deserves. With the addition of a handsome, more stylish control mechanism, the Zesta Plus is truly a sight to behold and a benchmark in office seating design.

ZA96 (Shown with optional JR30 arms.)

dynamic curves excite the senses.

THE ZESTA EXPERIENCE

The pleasures the Zesta provides go beyond its exquisitely streamlined elegance. This superstar among office chairs is also well equipped with the latest in innovative features. Featuring positive back release for the backrest and a European foam formula for the seat and back, the Zesta is packed with convenience and comfort of the highest caliber.

ZA62 (Shown with optional JR30 arms.)

- 1 chair height adjustment accommodates a range of leg and body lengths
- 2 EZ back height adjustment adjusts while you're seated to support your back's lumbar region
- 3 tilting backrest control allows the chair back to angle to your needs.
- 4 automobile-style seat slider adjusts the seat depth for a variety of users

- 5 rocking/tilting with full knee tilt control allows the chair to angle to your needs. As the chair tilts, the full knee-tilt feature allows you to keep your feet comfortably on the floor, reducing tension behind your knees. The positive back release safety feature prevents the back from suddenly springing forward when the control paddle is activated.

- 6 synchronous seat and back tilt/rocking control allows you to adjust the chair angle to the most comfortable position. The positive back release safety feature prevents the back from suddenly springing forward when the control lever is activated.
- FP fabric panel finishes the luxurious look with fabric covering the entire backrest. Standard feature on ZA94 and ZA98.

three choices to fit your needs

which zesta is right for you?

Discriminating business executives have varying needs. The perfect office chair for one executive may not work for others. So we've created three luxurious Zesta models, all designed to suit different work styles and personal tastes.

All Zesta models feature a distinctively curved and streamlined look, a sleek chrome fountain base, a comfortable European foam formula for the seat and back, plus optional arms, headrest, and leather. The difference between the three Zesta models is in the details:

the zesta

With tilt lock adjustable to three different positions, the Zesta is well suited for the "no-fuss" executive. Its sleek yet simple good looks complement any décor, while allowing essential adjustments for comfort and flexibility.

the zesta plus

For those whose tastes demand an even more sophisticated look, the Zesta Plus provides the contoured beauty their hearts desire. The beautiful, curved control mechanism creates a cleaner, more stylized look.

the zesta premier

When basic functionality is not enough, the Zesta Premier comes to the rescue with the power of a wide range of adjustable features, each one the latest in innovation. With functions like an automobile-style seat slider and rocking/tilting control, the Zesta Premier is a powerhouse chair that will stand up to rigorous demands.

OPTIONAL LEATHER

The ultimate chair now features the ultimate luxury - supple, top-grain leather. An option for any Zesta model.

adjustable headrest
Flexible headrest features a 3-way adjustment (height, angle, forward extension) for optimum fit and comfort.

designer's concept

We wanted a chair that would make a strong impression while also providing support and comfort throughout the long workday. So we crafted a simple yet elegant-looking chair with beautifully flowing curves, stunningly accented with a polished chrome base - the perfect complement to any office décor. Then, we included adjustable features for customized comfort, with the Zesta Premier models allowing even more adaptability with its multiple adjustable functions. These ergonomic features meet or exceed ANSI/BIFMA standards, guaranteeing optimum performance. The result is the Total Zesta Collection - executive office seating with comfort, flexibility and - above all - style.

office master® chairs:
