

Solace 2 promotes health and wellness by providing the core ergonomic benefits associated with height adjustable desks, monitor arms, and keyboard platforms. The all-in-one ergonomic workstation offers a quick & economical method to enhance user comfort as well as overall productivity. With its proficient ranges of lift, rotation and tilt, Solace 2 has the flexibility to accommodate a wide variety of users and applications.

Solace's pneumatic strut allows the arm to effortlessly lift the keyboard and monitor(s) between the seated and standing positions. The industry leading keyboard platform height range makes Solace 2 an ideal solution for multi-user environments. To create a uniquely personalized configuration, Solace 2 incorporates the ability to make independent adjustments to both monitor and keyboard platform positioning. The counter balance technology creates a simple to use, knob free experience so the user can adjust monitor height with minimal effort.

## SPECIFICATIONS

### Arm:

- 24.5 lb total load rating
- Designed to support 100th percentile standing women and 95th percentile standing men (ANSI/BIFMA & HFES standard)
