3   Adjusting Platform Tilt

To adjust platform toward negative tilt, turn the Tilt Knob "clockwise" until you reach a comfortable tilt angle.
To adjust platform toward positive tilt, turn the knob "counter-clockwise" until you reach a comfortable tilt angle.

Note: The tilt gauge located on top of the keyboard arm indicates actual tilt angle. A platform tilt angle between 0° to - 6° is often suggested as a good base for proper wrist position.

Counter-clockwise for positive tilt
