

Mosaic Product Specification Statement

Mosaic mobile workstation by Ergotron is a highly configurable and adjustable workstation on wheels (WOW). Optimally designed for users 5'0" to 6'1" (152 to 185 cm) tall to work comfortably when sitting or standing, even for prolonged periods.

BASE MODELS	DESIGN FEATURES
Mosaic Laptop (non-powered)	<ul style="list-style-type: none"> • Modern, modular design • Patented Constant Force™ motion technology reduces forces required to adjust cart: users can change work surface height as well as monitor and keyboard position with minimum effort • Four accessory mounting zones • Option to add up to three rows of drawers, locking per row • 5" (12.7 cm) lockable casters • Recessed work surface • Multiple handles and grip points for ultimate maneuverability
Mosaic LCD (non-powered)	
Mosaic Laptop, AC/DC power	
Mosaic LCD, AC/DC power	

CERTIFICATIONS AND STANDARDS

- Mosaic’s entire power system and the full workstation is certified to ANSI/AAMI ES60601-1 and CAN/CSA-C22.2 No. 60601-1. Compliant with EMI limits of FCC Part 15 Class A
- Mosaic is designed to meet guidelines established by the American National Standards Institute for computer use.
- RoHS, REACH, WEEE and EU (94/62/EC) packaging compliant

FIPS 140-3 Inside Certificate #5026 Ergotron’s RhythmConnect software and Mosaic Carts include a FIPS-validated cryptographic module called the Ergotron Cryptographic Module. This module provides the cryptographic services needed to meet the strict industry requirements for FIPS (Federal Information Processing Standard) 140-3, a security benchmark certification mandated by the U.S. federal government for products protecting sensitive but unclassified information through cryptography.
