

Mosaic™

The Smarter, Scalable Workstation

When the tech just works, everyone works better. Mosaic is the plug-and-play platform built to make IT teams more efficient and caregivers more effective—without added complexity. With embedded software, each Mosaic workstation is configurable with smart security and personalized user settings.

Ready for actionable fleet intelligence? Subscribe to **RhythmConnect** software for reduced manual oversight and improved up-time, giving valuable time back to those who need it most. Connect, scale, and evolve care with Mosaic.

Why Decision-Makers and IT Teams Choose Mosaic

Simplify your fleet, simplify your day. One adaptable platform that's efficient to deploy and features scalable tech and configurations so you standardize with confidence.

Virtual monitoring and control. Remote access for faster, virtual repairs and less downtime. Subscribe to RhythmConnect software for full fleet intelligence, including actionable reporting.

Secure, personalized workflows. Smart login and drawer configurations. Customize settings and issue tracking by user and asset.

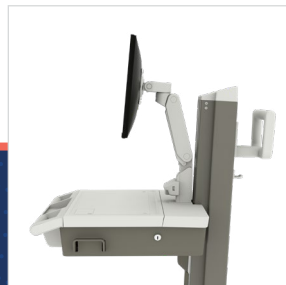

Spend more time on patients, less on tech. Enable self-service tools and smart prompts to add valuable minutes back to everyone's day.

Continuous improvement, not waste. Modular components with parts that swap in minutes. *Replace parts, not carts!*

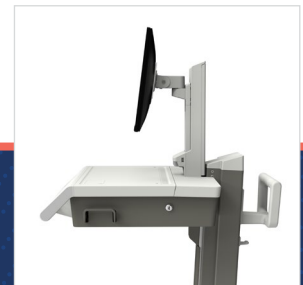

Built to last, trusted security. Tested to 100,000 lift cycles, backed by a 5-year warranty. RhythmConnect software and Mosaic workstations are FIPS 140-3 validated, achieving the highest security standard mandated by the U.S. government.

Dual Side-by-Side and Dual Stack monitor mounts available for powered LCD models

Flex Arm enhances visibility in transport and connection at the point of care, available for powered LCD models

Heavy Duty (HD) Pivot Riser for all-in-ones and heavier screens, available for powered LCD models

Four Mosaic base models

Mosaic LCD (1) with integrated power or (2) without
Mosaic Laptop (3) with integrated power or (4) without

Smart Technology

1. 7" (17.8 cm) LCD touchscreen with power usage indicator. Drawer locking per row, PC restart, one-touch ticketing, and more API options when subscribed to RhythmConnect software
2. Worksurface light and fast-charge USB port
