

Banana-Board® Platform

Adjustable Keyboards - Solo Platforms

WORKRITE®
ERGONOMICS

Keyboard platform and palm support with sliding mouse platform for left or right handed use

Mouse-Forward™

The Banana-Board Platform features a Mouse-Forward design, for easy movement within the primary reach zone.

Neutral wrist position is the key to comfort.

All palm supports are upholstered with LeatherRite™, providing the feel of soft glove leather and the durability of synthetic fiber. Its hypoallergenic, breathable micro porous structure dissipates heat in warm weather and retains it in cold weather. For superior palm support and comfort, choose our JelRite™ palm supports with a thermal reactive memory foam that minimizes pressure against the palm.

Thoughtful Features

On all platforms, our palm supports are easily removable to meet the user's unique requirements. All Ultra-Thin platforms have the Optimizer™, an integrated keyboard cord management feature, along with a built-in document holder and mouse cord retainer.

Durable Platforms

Our ¼" Ultra-Thin phenolic minimizes the distance between the forearm and thigh, providing a greater range of ergonomic fit. For value driven applications, select our Classic™ ⅝" melamine platform.

Features

- Slide out platform provides MouseForward design
- Accommodates right or left-hand mousing
- Platform features Optimizer document holder cable management system
- Removable LeatherRite palm support
- Fits curved corner over 12", diagonal corner over 12", and 90° corner with adapter

Color	Platform Type	Palm Support	Model #	Weight
