

## adjust your chair | the OM5 Series™ by Office Master

1. **Seat Height.** Adjust your chair height to allow the bottom of your feet to be comfortably level on the floor.

2. **Waterfall Flex.** Increase/decrease waterfall angle for greater thigh support & comfort. Flex edge while seated.

After that, simply sit fully back into your seat and relax...

The OM5 Series™ *automatically* adjusts to you!

## about your chair | the OM5 Series™ by Office Master

Your OM5 Series™ was designed by Francisco Romero of Phidesign and built by Office Master, Inc. with simple use – and care – in mind.

Some useful advice for the proper cleaning of your OM5 Series™ chair...

**Cleaning Tips**  
(plastics/frame)

Use a clean cloth and mild cleaning solution (i.e., common household cleaners such as Formula 409, Fantastic, or even dish-washing soap). Wipe away excess with plain water and let dry.

**Cleaning Tips**  
(upholstery)

Generally, use mild detergent foam for water-based stains, and spot clean with dry-cleaning solvent for oil-based stains. Always test in a discrete area first & check with mill for directions on your specific upholstery material(s).

Your OM5 Series™ was designed, simply, to work! With fewer moving parts, and an integrated design, this chair epitomizes “clean” design.
