

ERGOTRON®

Sit Less. Stand More.

How much employees are sitting should scare employers

People across the world are spending too many hours sitting each day.
Look how quickly the hours add up!

How Sedentary is the Typical Office Worker Each Day?

The British Journal of Sports Medicine reported that sedentary behavior in the UK accounts for 65-75% of working hours, of which more than 50% is accumulated during prolonged periods of sustained sitting.

Stand Up Australia reports that 77% of an Australian's workday is sedentary.

The JustStand Index found that American workers are spending 21 hours engaged in sleeping or sedentary activities.

WITH THE RAPID DEVELOPMENT OF MODERN TECHNOLOGY,
SITTING HAS BECOME THE MOST COMMON POSTURE
IN TODAY'S WORKPLACE *Occupational Medicine*

84% of workers would rather
sit or stand as they please *JustStand Index*

58 million white-collar office workers

ONLY 1.5 MILLION WILL GET
A NEW DESK THIS YEAR

Upgrading desks to sit-stand offers many benefits

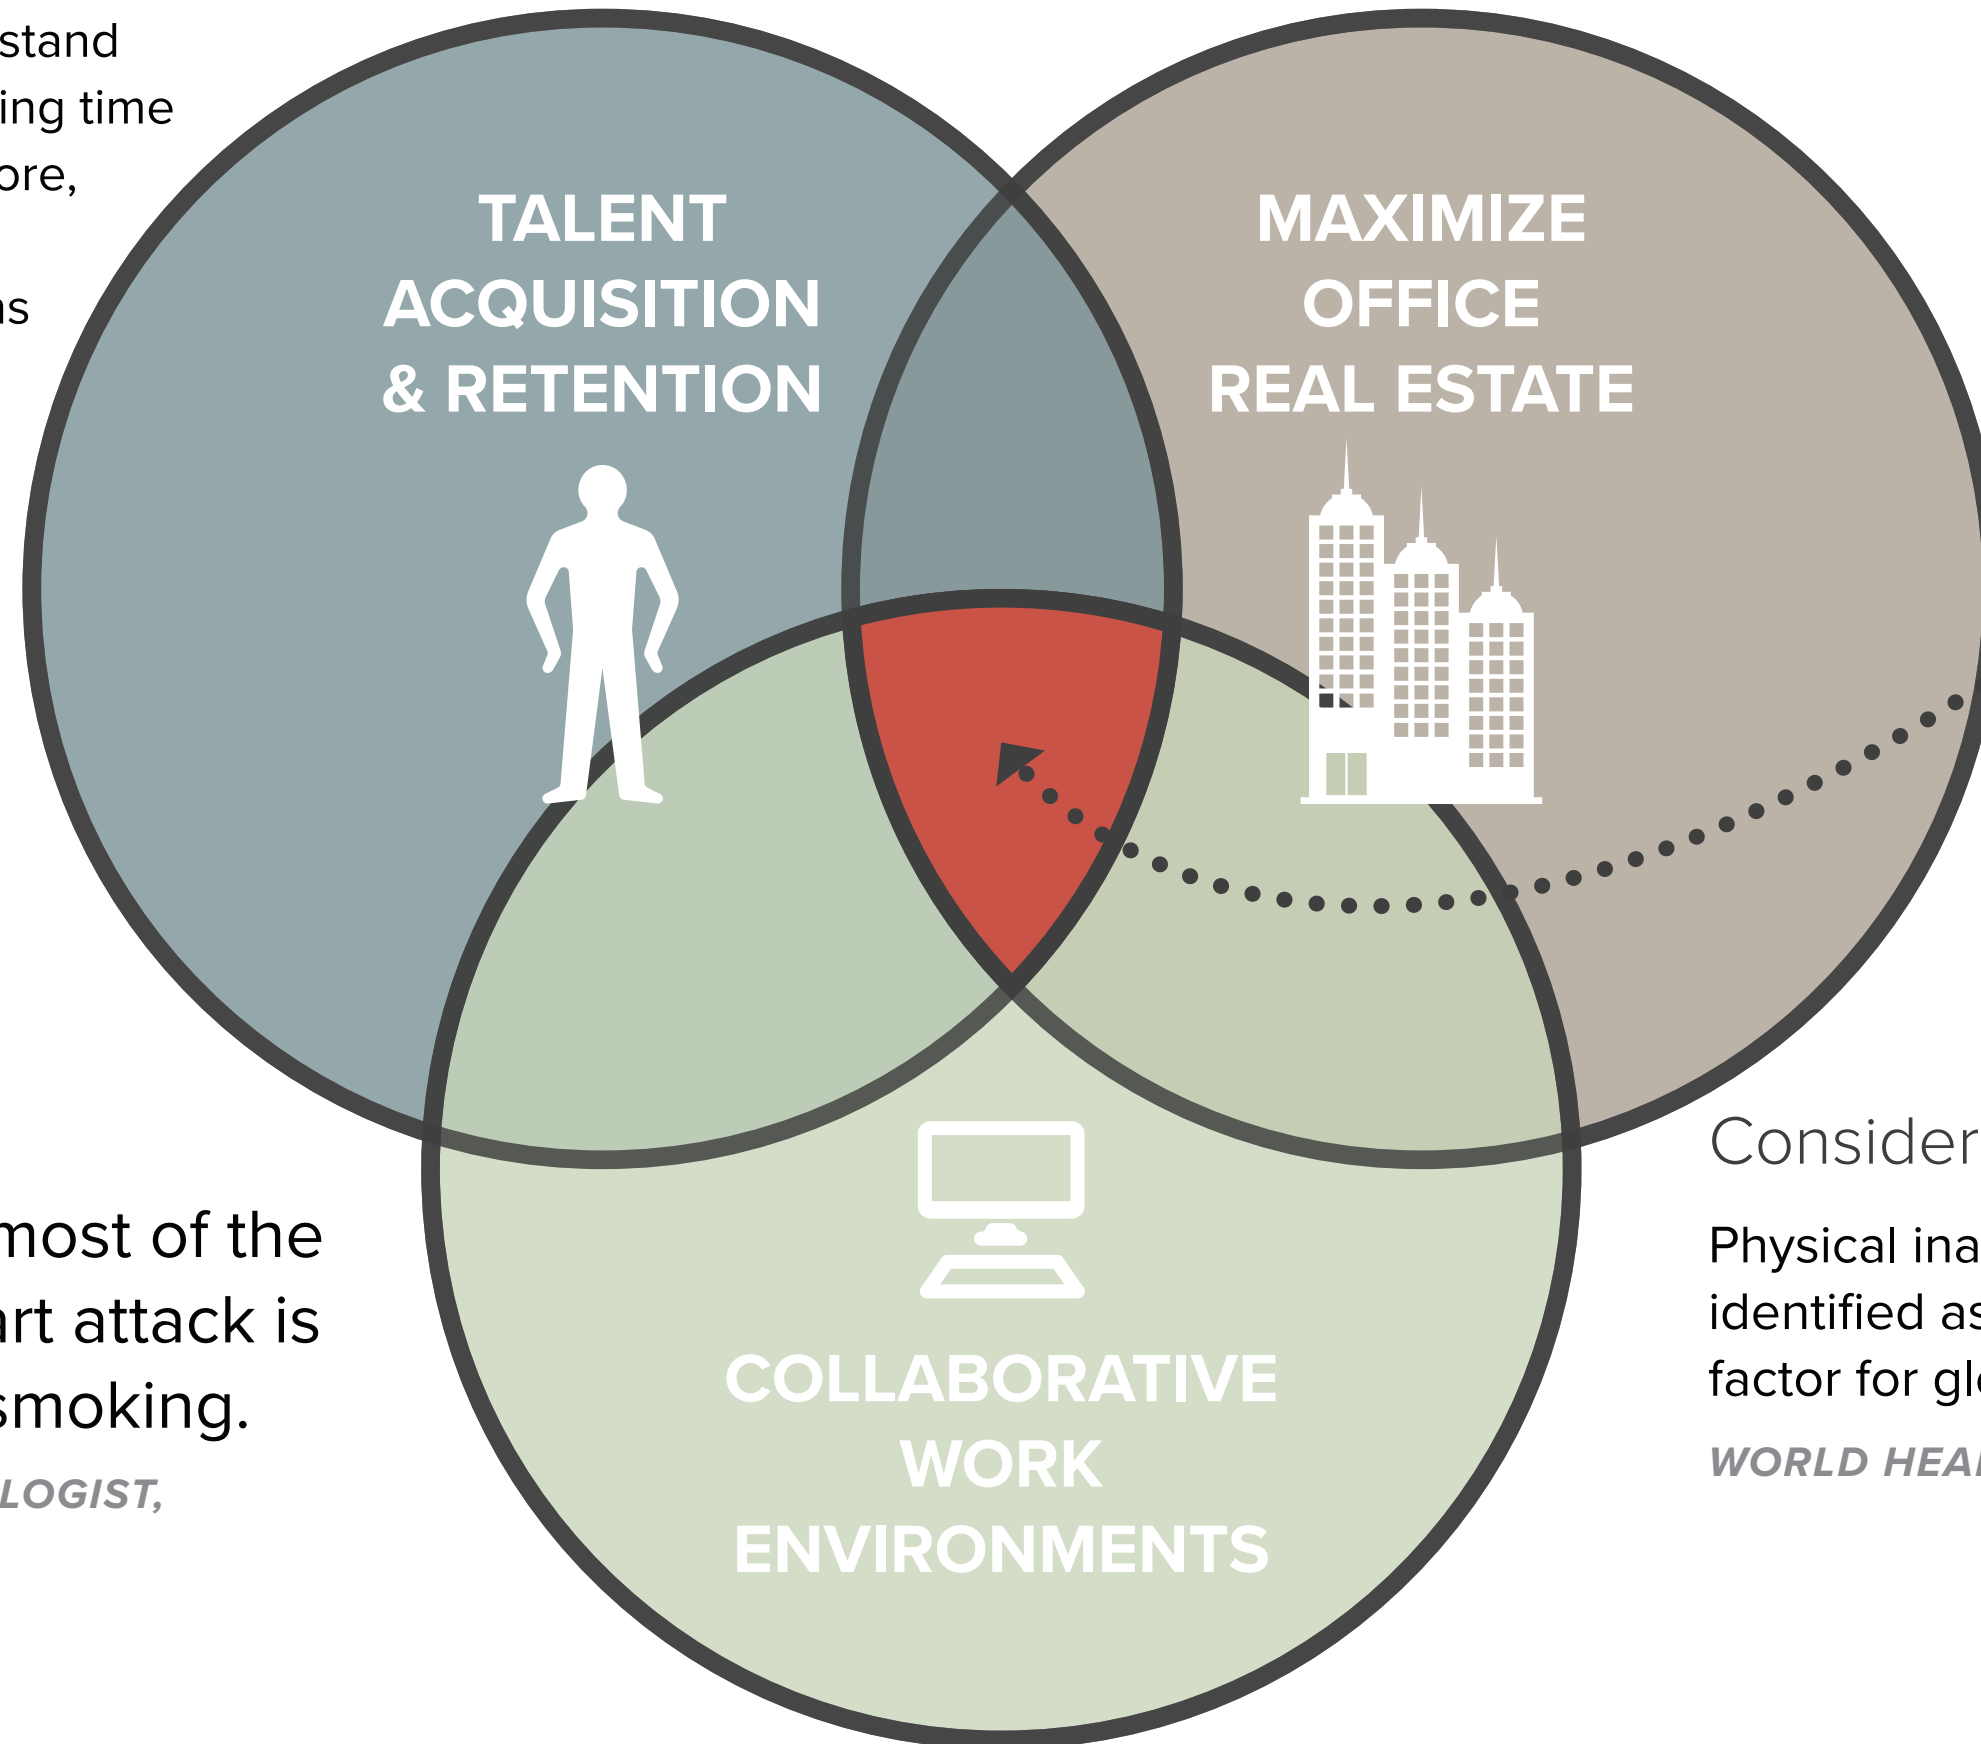

There's evidence that a sit-stand workstation can reduce sitting time in office workers. Furthermore, epidemiologic evidence suggests that the reductions in sitting at the workplace could potentially have considerable impact on cardiovascular disease and type 2 diabetes prevention.

*GENEVIEVE HEALY, PhD,
THE UNIVERSITY
OF QUEENSLAND*

For people who sit most of the day, their risk of heart attack is about the same as smoking.

And they're affordable too

365 DAYS OF GOODNESS

\$1.10 per day. That's the average cost of an Ergotron workstation. Equal to the cost of a typical daily indulgence at work. A cup of coffee. A soda. A pack of gum. An investment in sit-stand computing for employees not only is affordable, it is proven that ergonomic investment has up to 20% productivity gains. What can that mean for an employer?

Improve workflow

Ergotron WorkFit workstations bring new flexibility to traditionally static environments, increasing your options for equipment placement, improving workflow, and enhancing social interaction. That's good for a company's bottom line.

Getting started with Sit-Stand

Integrating a sit-stand environment is easier than you think. Whether you are upgrading an existing space or designing for a new build, WorkFit units are easy to install and use. They offer tool-free adjustment to suit individual users, and are tested to help ensure years of trouble-free up-down movement.

WorkFit-A

With Suspended Keyboard, Platinum
This premium mount and worksurface is compatible with desks $\leq 31.5"$ (80 cm) deep. Clamps to the rear or side of most surfaces. Swings side-to-side.

WorkFit-A

Single LCD with Suspended Keyboard
Clamps to the rear or side of most surfaces. Compatible with desks $\leq 31.5"$ (80 cm) deep. Fold-up keyboard tray. Swings side-to-side. Available in LD and HD monitor models.

WorkFit-A

Single LCD with Worksurface+
Ideal for corner workstations. Clamps to the rear or side of most surfaces. Swings side-to-side. Available in LD and HD monitor models.

WorkFit-S

Single LCD
Easily clamp to the front of the desk. Available in LD and HD monitor models.

WorkFit-A

For Apple®
An iMac® base slips easily under the worksurface and securely holds it in place. Compatible with desks $\leq 31.5"$ (80 cm) deep. Clamps to the rear or side of most surfaces. Swings side-to-side.

WorkFit-A

Dual with Suspended Keyboard
Clamps to the rear or side of most surfaces. Compatible with desks $\leq 31.5"$ (80 cm) deep. Fold-up keyboard tray. Swings side-to-side.

WorkFit-A

Dual LCD with Worksurface+
Ideal for corner workstations. Clamps to the rear or side of most surfaces. Swings side-to-side.

WorkFit-S

Dual LCD
Easily clamp to the front of the desk.

WorkFit-S

Single LCD with Worksurface+

Easily clamp to the front of the desk.
Available in LD and HD monitor models.
Available in black or white finish.

WorkFit-S

Dual LCD with Worksurface+

Easily clamp to the front of the desk.
Available in black or white finish.

WorkFit-SR

1 Monitor with Deep Surface

Easily clamp to the back of the desk.
Available in black or white finish.

WorkFit-SR

1 Monitor with Short Surface

Easily clamp to the back of the desk.
Available in black or white finish.

WorkFit-SR
Hvy Monitor with Deep Surface
Easily clamp to the back of the desk.
Available in black or white finish.

WorkFit-SR
Dual Monitor with Deep Surface
Easily clamp to the back of the desk.
Available in black or white finish.

WorkFit-SR
Hvy Monitor with Short Surface
Easily clamp to the back of the desk.
Available in black or white finish.

WorkFit-SR
Dual Monitor with Short Surface
Easily clamp to the back of the desk.
Available in black or white finish.

WorkFit-T & WorkFit-TL

Sits on top of the desk (no mounting or clamping required). Optional monitor mount kits available. Available in black or white finish. WorkFit-T not available in APAC.

SIT-STAND

The screenshot shows the homepage of JustStand.org. The header includes the 'JUST STAND .ORG' logo, the 'ERGOTRON' brand name, and a navigation menu with links: Mission, Facts, For Kids, Products, Tools, Events, Join, and Blog. A search bar is located on the right. The main banner features a red background with a white spine graphic and the headline 'BACK ON TRACK: REDUCING BACK PAIN AT WORK'. Below this, it mentions a 'Stanford University study reveals the benefits of using sit-stand workstations in the office'. To the right of the banner is a 'MoveMore® blog' section with articles like 'The Latest in Workspace Wellness', 'Guest Blogger: Denise Blaha of Quitting the Sitting', and 'Q&A: Standing desks require training, like a marathon?'. Below the banner is a three-step process: 1. The Challenge (Mission, Facts, Research), 2. The Solution (Products, Tools), and 3. Community (Events, Join, Blog). At the bottom, four red lines connect specific content to labels: 'The Facts' (points to Facts), 'Research' (points to Research), 'Products' (points to Products), and 'Videos' (points to the Community section's social media links).
