

SMOOTH & VERSATILE

The Poise monitor arm is designed to support heavier monitors weighing from 8–22 pounds. Poise features a pneumatic strut, precision machined couplings, and sturdy mounting options all designed to create smooth lift, maximum stability and easy adjustability.

Poise is available in two contemporary finishes and comes standard with coordinated C-Clamp and Grommet mounts. A variety of optional mounts for more unique installations, an extension arm for added reach, and a quick release adapter can also be purchased separately.

The Poise comes with a 10 year warranty and can be relied upon to provide years of dependable performance and adjustability.

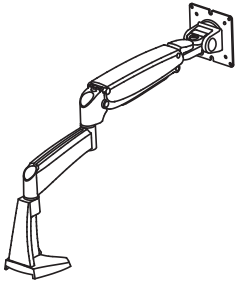

Available in Graphite and Silver.

Folds down to just 4" deep.
