IMPORTANT WARNINGS AND CAUTIONS!

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

WARNING: Exceeding weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components does not exceed the maximum allowable weight of the mount to which this accessory is being installed.

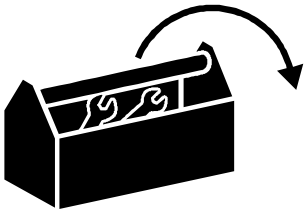
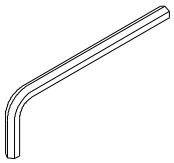
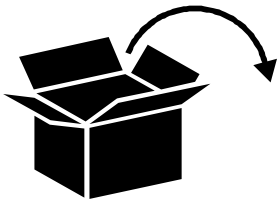
TOOLS REQUIRED FOR INSTALLATION

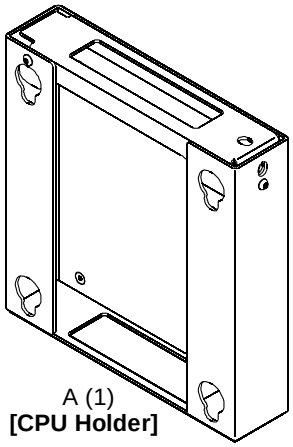




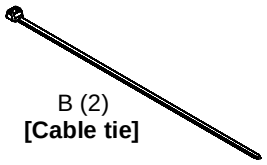
5/32" Security
(Provided)

PARTS

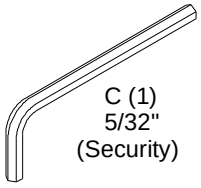




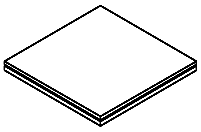
A (1)
[CPU Holder]



B (2)
[Cable tie]



C (1)
5/32"
(Security)



D (4)
[Hook and loop square]

ASSEMBLY

1. Remove paper from adhesive back of four hook and loop squares (D).
2. Attach four squares of hook and loop (D) to CPU side. (See Figure 1)

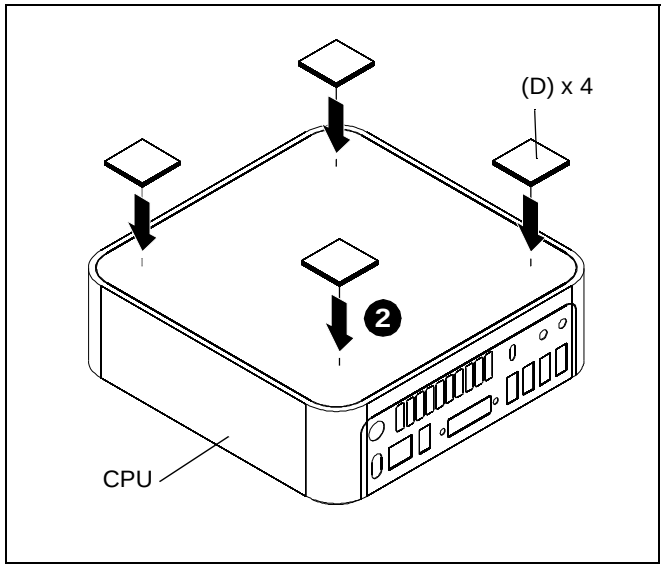


Figure 1

3. Remove and save cover locking screw from CPU holder (A) using 5/32" security hex wrench (C). (See Figure 2)
4. Open CPU holder cover. (See Figure 2)

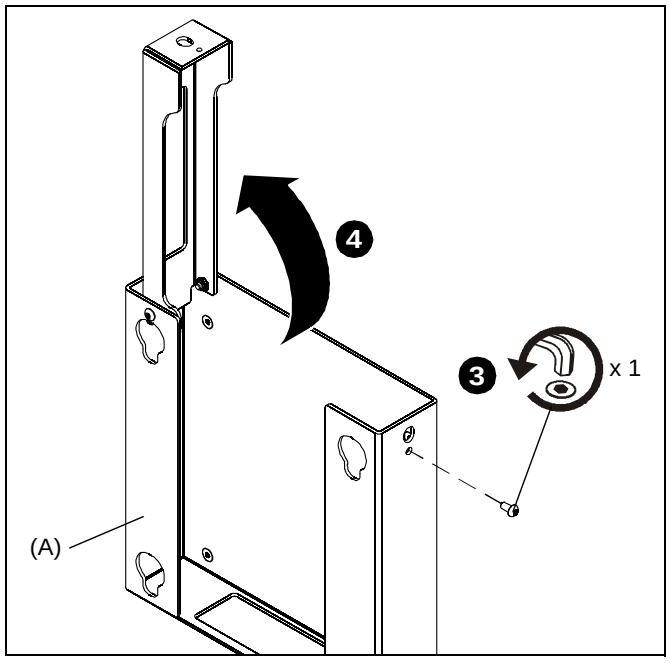

Figure 2

5. Remove paper from adhesive on four hook and loop squares already attached to the CPU.
6. Slide CPU into CPU holder (A). (See Figure 3)

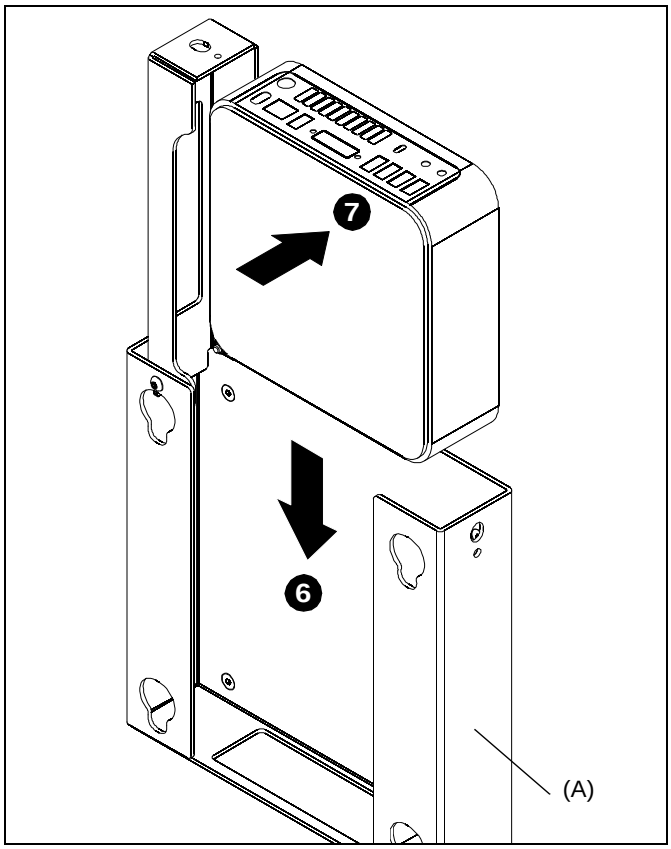

Figure 3

7. Press CPU side with hook and loop squares against back inside surface of CPU holder (A). (See Figure 3)
8. Close cover of CPU holder. (See Figure 4)
9. Secure CPU holder cover with button head security screw (removed in Step 3) using 5/32" security hex wrench (C). (See Figure 4)

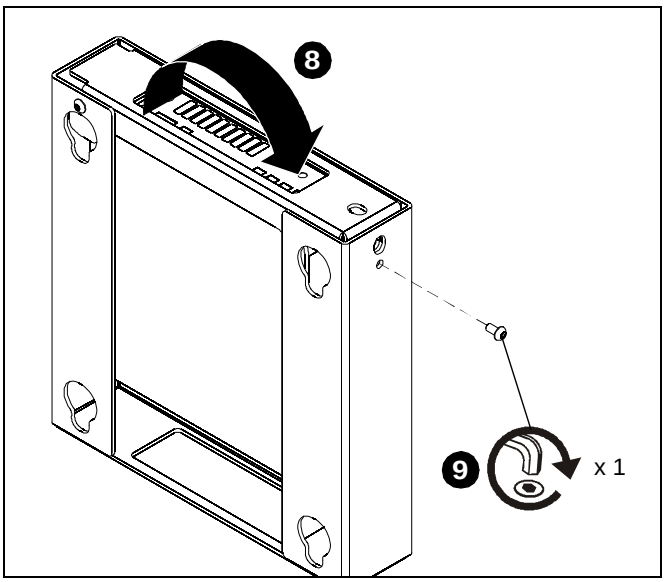

Figure 4

10. Install optional padlock, if desired. (See Figure 5)

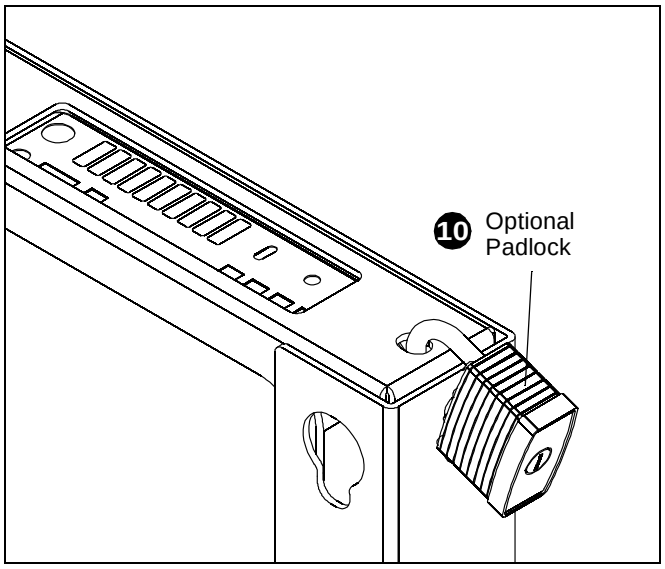

Figure 5

INSTALLATION

Install CPU Holder with CPU to Mount

WARNING: COMBINED WEIGHT OF CPU AND CPU HOLDER MAY WEIGH IN EXCESS OF 40 LBS. ALWAYS use two people when lifting and follow proper lifting techniques when installing!

1. Install the CPU holder, with CPU, onto mount and route wires and cables following the instructions provided with the mount.

WARNING: IMPROPER INSTALLATION CAN LEAD TO CPU HOLDER FALLING! Make certain mounting buttons on CPU holder are fully engaged in teardrop holes in mount and latching flag on mount is fully closed before installing the display.

Install Display

WARNING: DISPLAY MAY WEIGH IN EXCESS OF 40 LBS. ALWAYS use two people when lifting and follow proper lifting techniques when installing!

IMPORTANT ! : The following procedure assumes that the proper interface bracket for display being mounted has already been installed on display. If no interface bracket is present on display, install bracket to display using instructions included with interface bracket before proceeding.

1. While supporting each side of display, align four mounting buttons on display or interface bracket with four teardrop slots in CPU holder (See Figure 6).
2. Lower display firmly into place.

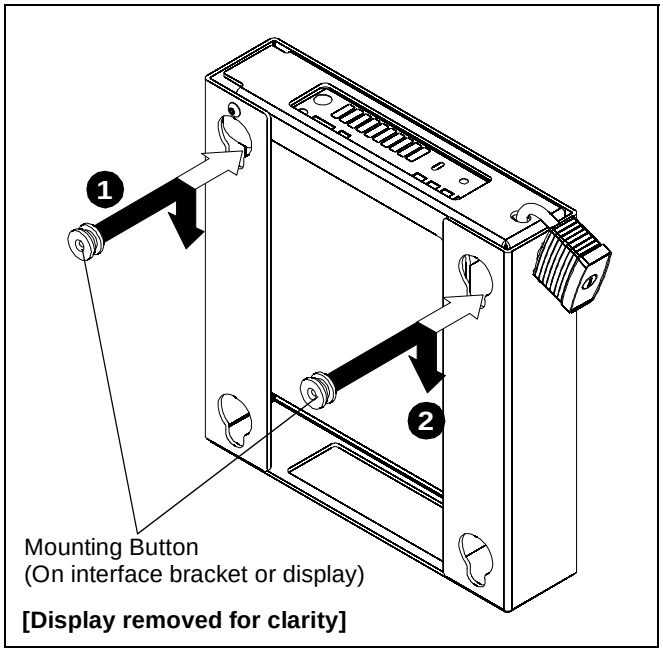

Figure 6

3. Ensure mounting buttons are fully seated in teardrop slots.
4. Connect cables to display.
