

Highlights

- StyleView Patient eTable positions easily over a bed or chair, so it's perfect for use in hospital rooms, chemotherapy or dialysis treatment areas, and long-term care facilities
- Open architecture design supports virtually all patient or hospital device configurations
- Includes 2 easily accessible USB ports for connectivity and device charging
- Device charging "tech bay" on the rear edge also can be used for storing small items
- One-handed height adjustability helps keep everything at the perfect user height
- A seamlessly integrated arm puts the tablet within reach in order to connect patients to caregivers, information and entertainment
- Large surface area provides ample room for eating meals, writing or using personal items
- Includes spill retention basin for simple cleanup
- An integrated pull-out drawer and optional basket accessories help keep personal belongings within reach

ERGOTRON®

StyleView® Patient eTable

Patients engage! From education to entertainment — and more

Ergotron's StyleView Patient eTable aligns perfectly with rapidly growing patient engagement initiatives in healthcare settings: offering patient portals for physician or nurse contact, scheduling, medical history, clinical results, treatment/medication information, discharge instructions and even entertainment.

The StyleView Patient eTable makes tablet usage more comfortable and practical because it offers easy placement and the table's surface height can be perfectly positioned over a bed or chair. Everything stays within reach. Plus, there's plenty of surface area for other activities and some storage space for personal belongings.

Hospitals and care facilities that have deployed this type of convenience technology have experienced an increase in both patient and caregiver satisfaction.

- ① Integrated arm brings tablet within reach; accommodates most brands. (Note: A tablet holder which mounts to the arm is available as an accessory.)
- ② Large 30x19" (76,2x48,3 cm) worksurface provides plenty of room for meals or using personal devices
- ③ Pull-out drawer under the table surface stores small personal belongings, such as a phone and wallet
- ④ Technology bay includes 2 accessible USB ports for charging devices
- ⑤ Adjust surface height from either side up to 16" (40,6 cm); height adjustment range is 30–46" (76,2–116,8 cm)
- ⑥ T-slot on lift column allows for accessories, like a storage basket
- ⑦ H-shaped base has 3" (7,6 cm) of clearance

Tech Bay stores 2 USB cables to charge devices

Easily lift or lower eTable with the simple squeeze of a lever from either side of the eTable

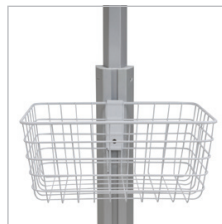

Pull-out drawer stores small personal items
