

ERGOTRON®

Charging Locker

Highlights

- Charging Locker offers five roomy and separate bays within a small footprint
- Charges up to 15 devices (three per bay); includes 1 USB and 2 AC outlets
- Brackets attach locker to wall or countertop, keeping unit stable and secure
- Each bay door has a programmable lock for a unique code every time
- Locks are mechanical, eliminating the need for batteries
- To save space, two Charging Lockers can be stacked; units are stable and secure
- Window and LED light in each door lets users identify empty bays or inspect contents within
- Ventilated doors and panels keeps devices cool
- For safety, Charging Locker and electrical components are UL approved
- Built in the U.S.A.; TAA Compliant

Secure device charging for multiple users in a variety of environments

Ergotron's Charging Locker provides all types of facilities with secure device charging for several users simultaneously. Each unit has five bays with programmable locks; users create a unique numerical code each time of use.

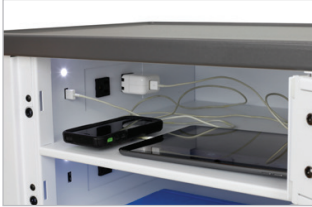

The Charging Locker is ideal for educational institutions, healthcare facilities, airports, hotels and all types of businesses where multiple users need secure charging capability. Its petite footprint saves space, and for additional user support, two Lockers can be securely stacked together.

Each charging bay has ample room with 1 USB and 2 AC outlets to charge up to three devices: a laptop, tablet and phone, or combination thereof. There also are clear windows with a light source, so users can detect available bays and view the contents within.

TAA Compliant

- ① Press button to turn on light in all bays
- ② Charge up to 3 devices per bay each using 2 AC outlets and 1 USB connector; bays measure 16" x 16" x 4" (40 x 40 x 10 cm)
- ③ Each of the five bays are lockable with a programmable 4-number combination defined by users
- ④ Each charging bay has two clear windows to view contents within
- ⑤ Locker and charging bays are well ventilated to keep devices cool

Each charging bay offers 2 AC outlets and 1 USB connector

Programmable lock uses 4-number combinations as defined by users

Five bays support up to 15 devices

All bays light up with a simple push of a button

Stack and secure two lockers together to save space

A bracket attaches Charging Locker to wall or desktop for added security

The Charging Locker Pedestal accessory elevates the Charging Locker off the floor by 18" (45 cm) making it easier to reach the bays (#98-137-A68)
