

Assembly Instructions: Astra 3 Double Arm Desk Light AST3-DA-WOB-S

Parts

Tools Required

A 5 mm Allen wrench is provided to tighten the set screw lock. No other tools are required to assemble the Astra 3.

Required, Sold Separately

Light Base

1 Install Light Mount/Base in Desired Location.

Refer to the instructions that came with your chosen mount for detailed instructions.

2 Attach Lamp to Mounting Post & Tighten Set Screw Lock

- a** Apply pressure until the Luminaire Arm (A) snaps onto the mounting post. Astra 3 mounts to all bases in the same fashion.
- b** Tighten Set Screw Lock clockwise with Allen wrench provided. The Set Screw Lock prevents the arm from being able to be removed from the base.

3 Attach to Transformer & Plug Into Outlet

- a** Connect cord from Luminaire Arm (A) to the Transformer cord (B).
- b** Plug Transformer into 100–240 V wall outlet.

! Note! If attaching light to adjustable height worksurface, raise worksurface to the maximum height before positioning the fixture to ensure that cord will reach the outlet when worksurface is raised.

User Controls

Range of Motion

On/Off: Press and release the On/Off button once to turn on or off. Note: The lamp will return to the same brightness setting it was before being turned off.

Dimming: While the lamp is on, press & hold the dimmer button. Dimming will be continuous down to 5%.

Brightening: While lamp is on and dimmed to less than 100% brightness, double tap the dimming/brightening button. The lamp will return to full brightness.

Auto Shut-Off Programming

5 Hour Timer: Turn the lamp On. Press & hold the On/Off button for 15 seconds. The light will emit a single flash to indicate the 5 hr Auto Shut-Off has been activated, then release the button.

10 Hour Timer: Turn the lamp On. Press & hold the On/Off button for 20 seconds. The light will emit a double flash to indicate the 10 hr Auto Shut-Off has been activated, then release the button.

Disable Timer: Turn the lamp On. Press & hold the On/Off button for 30 seconds. The light will emit a triple flash to indicate the Auto Shut-Off has been deactivated, then release the button.

NOTE! The auto Shut-Off Programming will be overridden when an optional Occupancy Sensor is in use.
