

E5 WALL MOUNT

MONITOR ARMS

HAT DESIGN WORKS™
HUMAN ACTIVE TECHNOLOGY

BUILT TO HOLD. DESIGNED TO MOVE.

The E5 Wall Mount provides a secure foundation for flexible monitor positioning across a wide range of environments. From commercial workspaces and food-service applications to offices and shared spaces, it keeps displays firmly supported while preserving the adjustability and performance of the E5 monitor arm.

FEATURES

- **Rock-Solid Support:** Creates a secure, stable mounting point for the E5 monitor arm in wall-mounted applications.
- **Flexible Positioning:** Maintains the full range of motion of the E5 arm for easy screen positioning and adjustment.
- **Space-Saving Design:** Keeps monitors off the worksurface, freeing up valuable space below.
- **Built for Demanding Environments:** A versatile solution for commercial, office and shared workspaces where stability and accessibility matter.
- **Clean Integration:** Low-profile wall mounting creates a streamlined installation without sacrificing adjustability.
- **E5 Compatibility:** Designed specifically to integrate with the E5 monitor arm system for a secure, cohesive solution.
