

CareFit™ Combo

Modular Wall Workstation Collection

Support caregiver and patient connections with the modular CareFit Combo collection. CareFit Combo allows nurses to focus on patient care by enabling an efficient and comfortable documentation experience at the point of care with easy screensharing, one-hand stowing, and intuitive access to tools.

The CareFit Combo portfolio provides healthcare teams with a modular workstation collection supporting users across different room sizes and workflows with full-size and compact options. Configurable with accessories and flexible to position to help caregivers stay connected to patients while also helping IT and facilities teams standardize, maintain, and adapt the solution over time.

Why Decision-Makers Choose CareFit

Better care starts at the bedside.

Bring documentation closer to the patient with ergonomic screen positioning. Caregivers maintain visibility, eye contact, and comfortable postures while charting.

Fit to workflow and space.

Choose from full-size or compact options based on room size, traffic flow, documentation needs, and accessory requirements.

Reduce room clutter and support servicability. Hidden cable management and cord access create cleaner workspaces and are easy for IT teams to maintain and upgrade.

Standardize with the ability

customize. The CareFit Combo portfolio allows different configurations by room type, department, or technology setup so IT can standardize on a platform that's adaptable over time and customizable to specific uses.

Built to last. Tested to 100,000 lift cycles, backed by a 5-year warranty.

Configure and conceal cables with arm extender options.

Set up and accessorize for unique workflows as demands change.

NEW! Compact models are made to fit in tighter care areas.

Worksurface

Available in compact and full-size models. Compact models feature 20% smaller worksurface / keyboard tray for tighter care spaces.

Modular, Full Motion, Customizable

1. CareFit Combo models with worksurface provide a pull-out keyboard tray with integrated worksurface.
2. 180° of pan with 25° of tilt facilitates nurse-patient interaction.
3. Space-saving design easily folds and locks in place when not in use to open up more work area.
4. The wall track provides secure installation and supports a variety of add-on accessories. Concealed cable management also supports infection control and neater spaces.
5. RFID badge reader built into the worksurface.
6. Compact worksurface models feature an integrated mouse cubby.
7. Customize to multiple users and workflows with a full suite of accessory options.
