Video Conferencing Systems
Chief provides fully configurable mounting systems to create custom Video Conferencing and Telepresence suites. Having the right system, with mounts and accessories that integrate seamlessly is key to creating a fully functional video conferencing solution.

Chief has a wide variety of display mounts with differing functionality. Options include Fixed, Tilt, Swing Arm, or Mobile Carts & Stands.

**FUSION Fixed & Tilt Mounts**
FUSION is one of the most flexible mounting systems on the market. A suite of accessories work with the mount for a fully integrated solution.
- Fine tune adjustments after installation
- Level and height-adjust the entire configuration

**Swing Arm Mounts**
Use a Swing Arm Mount when you need flexible position of the flat panel TV. Chief’s Swing Arms are compatible with a variety of component and speaker accessories.

**Mobile Carts & Stands**
Get complete mobility with these mobile carts and stands. A brought collection of accessories allows complete customization.

Configure your video conferencing solution according to project requirements by adding the right mix of accessories to the mount. For more information on the features and benefits of Chief’s mounting solutions, visit www.chiefmfg.com.
Chief designed a number of unique accessories, specifically for mounting codecs, set tops, cameras, CPUs and other components. Engineered to fit with the most common video conferencing brands, Chief’s line of component accessories integrate seamlessly with the mount.

Chief offers a full set of CAD, DWG and manuals for each mount and accessory, showing 1:1 overall dimensions and views. Download directly from the Chief website at www.chiefmfg.com.

**LSMu™ FUSION MOUNTS**

1. FVS200™/FVS250™ 8” and 12” VC Shelves - above
