

Highlights

- Convenient all-in-one system allows for quick setup—and is less expensive than other combined solutions
- Easily moves through standard-size doorways and over thresholds
- Save money by sharing a large display over multiple rooms
- Constant Force (CF) technology enables smooth, in-tandem motion of display and camera shelf
- Adjusts with just a touch—no knobs or levers
- Modular cable management channels conceal and organize cables

Ergotron® LX

Video Conferencing Cart

Transform any space into a videoconference center

This sleek all-in-one system is ready to roll. The one-of-a-kind, height-adjustable LX Video Conferencing Cart converts any space into a videoconference center. The fully-equipped LX Cart can serve an array of videoconferencing needs.

It features an adjustable camera shelf that enables the camera to move in tandem with the display. With 20 inches (51 cm) of effortless height adjustment and 20° of independent display tilt, the LX Cart provides optimal positioning of a videoconferencing system for both seated and standing audiences.

- *Twenty inches (51 cm) of effortless height adjustment of display and camera*
- *Smooth display tilt adjustment up to 20°*
- *No knobs or levers needed to hold display in place*
- *Includes 4" locking casters*
- *Sleek design complements office décor*
- *Rugged steel shelf conveniently attaches to the tower of the cart at any desired level*
- *Height-adjustable camera shelf moves in tandem with display*
- *Modular cable channel system is adaptable for various wiring configurations*
- *Accessory kits available for mounting a CPU, laptop or keyboard*
- *Five-year warranty*
